

Symétrie

Your hexapod solution

Created in 2001

Located in Nîmes, France

Hexapod specialist

International sales: 70%

Turnover: 11 M€

50 employees

COMPANY PROFILE

Founded by Olivier Lapierre & Thierry Roux, SYMETRIE is specialized in hexapods, parallel-kinematics systems used for ultraprecise positioning or dynamic motion of objects in six degrees of freedom.

SYMETRIE's experience and expertise allow us to find and select the most suitable solutions for our customers around the world.

OUR VALUES

 Innovation: Our R&D team is constantly innovating to serve our customers.

 Reactivity: Thanks to our agility, we offer solutions by the best deadlines.

 Excellence: Quality is at the heart of our high-tech achievements.

 Societal: We are daily involved in local cultural and associative life.

APPLICATIONS & CUSTOMERS

Aeronautics

Airbus, Boeing, Atr Aircraft, Dassault, Rollsroyce, Liebherr, Latesys

Astronomy

AMOS, ARIES, DAG, ESO, IAS, INAOE, IOE, IRAM, Leonardo, OHB, Safran Reosc, TNO

Automotive

Avs Simulation, Bosch, Continental, Hyundai, Stellantis, Valeo

Defense

Arquus, Bae System, Fn Herstal, Instro, L3 Harris, Lockheed Martin, Safran, DGA

Energy

Air Liquide, CEA, CERN, CNIM, General Electric, ITER, Orano, Total Energie

Naval

GTT, Ifremer, IMAR, Naval Group, Saab, Sintef, SNF, TCOMS, TU Delft, US Navy

Semiconductor

Argonne, Berkeley, Diamond, ESRF, IHEP, LNLS, MAX IV, PSI, SLAC,

Space

Airbus, Ball, CSL, ESA, NASA, Officina Stellare, Safran, Space Com, Thales

Synchrotron

Argonne, Berkeley, Diamond, ESRF, IHEP, LNLS, MAX IV, PSI, SLAC

University

Johns Hopkins, MIT, McGill Univ., National Univ. of Singapore, New York Univ., Seoul National Univ., UCL, Univ. of Cambridge, Univ. of Chicago, , Univ. of Oxford, Univ. of Tokyo
